

# Henock Teshome

Boulder, CO • (720) 251-3722 • teshome0@gmail.com • github.com/xeare • linkedin/in/henock-teshome

## Summary

---

*Detail-oriented Software Developer with over a year of programming experience developing proprietary, customer facing, high-impact software. Team oriented, knowledgeable and passionate about root cause analysis and modern testing methodologies.*

## WORK EXPERIENCE

---

### Software Release Engineer

August 2018 - Present

Kelly Services | Longmont, CO

- Package and release 200+ customer facing firmware builds for Intel's NSG division.
- Communicate with customers to accomplish specific build asks daily in a fast-paced, dynamic environment.
- Collaborate with team of 10 engineers to automate: build, post-processing, and end to end release; utilizing Atlassian's Jira Rest API.
- Automate daily build tasks; capturing build logs to increase efficiency and tracking of firmware.
- Utilize Pytest and Mocks to simplify unittests and increase overall line code coverage by 25%.
- Develop Selenium tests for Jira-form workflow validation.
- Coordinate build machines' maintenance by implementing thorough and repeatable regression tests.
- Participate in peer code-reviews using git workflows and Bitbucket.

## SKILLS

---

### Fluent:

Python, Git, Selenium WebDriver, Unittest, Pytest, DOM, Django, HTML5, Github, Bitbucket, CSS3, TDD, Atlassian Toolset(Jira etc), Build Automation

### Working:

Flask, Vagrant, Mercurial, Bootstrap 4, Postman, PostgreSQL

## PROJECTS

---

### Selenium Page Object Model (POM) Showcase

2018

github.com/xeare/A-page-object-model-in-practice

- A demonstrative Page Object Model built in Python3.
- Tests an *E-Commerce Mock Website* with Selenium Webdriver on a Chrome Browser.

### A Personal Journaling Website (Individual Project)

2019

ajournal.herokuapp.com

- A Web application serving as a safe space for personal thoughts and adventures, built with a focus on privacy.
- Created with Django backend framework and PostgreSQL as a database.
- Deployed on Heroku and CI implemented in TravisCI.

### My Recipes

2019

github.com/xeare/myrecipesbook  
(In Progress)

- A Django web application built to solve the problem of cluttered recipe sites.
- Designed with minimalism in mind; a simple and clean CRUD app for all cooking antics.

## EDUCATION

---

### Colorado State University-Global Campus

Expected: November 2020

IT & Programming, Bachelor of Science

### University of Colorado Boulder

Dec 2017

Completed coursework towards B.A. in Neuroscience
